

AMENDMENTS TO THE CLAIMS

In accordance with the PTO's revised amendment format, a detailed listing of all claims has been provided. A status identifier is provided for each claim in parentheses following each claim number. Changes to the claims are shown by strikethrough (for deleted text) or underlining (for added text).

In the Claims:

Claims 1-20 were previously pending.

Amended claims: 2-5, 11-14.

Canceled claims: 1, 6-10, 15-20.

No new claims are added.

Pending claims: 2-5, 11-14.

Claims:

1. (Canceled)
2. (Currently Amended) A secure gun display, comprising:
a restraint for holding a gun through a trigger guard of the gun and around a stock of the gun. ~~The secure gun display as recited in claim 1, wherein a curvature of the restraint comprises at least part of a non-planar spiral; and~~
a means for securing the restraint to a secure surface.
3. (Currently Amended) A secure gun display, comprising:
a restraint for holding a gun through a trigger guard of the gun and around a stock of the gun. ~~The secure gun display as recited in claim 1, wherein a curvature of the restraint comprises at least part of a helix; and~~
a means for securing the restraint to a secure surface.
4. (Currently Amended) A secure gun display, comprising:
a restraint for holding a gun through a trigger guard of the gun and around a stock of the gun. ~~The secure gun display as recited in claim 1, wherein a curvature of the restraint corkscrews through three dimensions; and~~
a means for securing the restraint to a secure surface.
5. (Currently Amended) A secure gun display, comprising:
a restraint for holding a gun through a trigger guard of the gun and around a stock of the gun, ~~wherein a curvature of the restraint corkscrews through three~~

dimensions ~~The secure gun display as recited in claim 4, wherein a curvature of the restraint comprises comprising~~ a curve in a 3-dimensional axis system along a first axis that changes direction to a second axis that changes direction to a third axis; and a means for securing the restraint to a secure surface.

6-10. (Canceled)

11. (Currently Amended) A restraint for securing a gun, comprising:
a member to hold a gun through a trigger guard of the gun and around a stock of the gun,
wherein the member includes fasteners to secure the member to a
secure surface and The restraint for securing a gun as recited in claim 10,
wherein a curvature of the member comprises at least part of a non-planar spiral.

12. (Currently Amended) A restraint for securing a gun, comprising:
a member to hold a gun through a trigger guard of the gun and around a stock of the gun,
wherein the member includes fasteners to secure the member to a
secure surface and The restraint for securing a gun as recited in claim 10,
wherein a curvature of the member comprises at least part of a helix.

13. (Currently Amended) A restraint for securing a gun, comprising:
a member to hold a gun through a trigger guard of the gun and around a stock of the gun,

wherein the member includes fasteners to secure the member to a secure surface and The restraint for securing a gun as recited in claim 10,

wherein a curvature of the member corkscrews through three dimensions.

14. (Currently Amended) A restraint for securing a gun, comprising:

a member to hold a gun through a trigger guard of the gun and around a stock of the gun,

wherein the member includes fasteners to secure the member to a secure surface and

wherein a curvature of the member corkscrews through three dimensions comprising The restraint for securing a gun as recited in claim 13,
wherein a curvature of the member comprises a curve in a 3-dimensional axis system along a first axis that changes direction to a second axis that changes direction to a third axis.

15-20. (Canceled)
